REGIONAL MONITORING REPORT, 15TH EDITION: Asia and Pacific

FAIRTRADE

About Fairtrade International

Fairtrade International is a non-profit, multi-stakeholder association that promotes fairer conditions for international trade, empowers small-scale farmers and workers, and fosters sustainable livelihoods. Fairtrade International develops and maintains the internationally-agreed Fairtrade Standards, owns the FAIRTRADE Mark, and supports the international Fairtrade system. Three regional Fairtrade Producer Networks representing 2 million farmers and workers co-own the international Fairtrade system, which also includes the independent certification body FLOCERT, and Fairtrade organisations in more than 30 countries that promote Fairtrade to business and consumers.

Co-Funding Information

Co-funded by the European Union

The Producer Satisfaction Survey and this publication were produced with the support of the European Union. The contents are the sole responsibility of Fairtrade International and do not necessarily reflect the views of the European Union.

NAPP, the Network of Asia and Pacific Producers, was established in 2014 and represents all Fairtrade certified farmers and workers across the Asia Pacific region. All these producers share ownership of the Fairtrade system and have an equal voice in all decisions that affect them. As a Producer Network, NAPP ensures their voice is heard in the system.

About FLOCERT

FLOCERT is a leading global assurance provider. Besides providing sole certification to Fairtrade, FLOCERT also offers an array of services to support companies in sourcing on fair principles, where no Fairtrade Standard applies. Founded in 2003, the company has six international offices, over 150 employees and more than 120 auditors worldwide.

Introduction

The Network of Asia and Pacific Producers is a regional association that Fairtrade certified Producer Organisations may join if theywish. They represent small-scale producers within the Fairtrade system. For instance, producers have 50 percent of the voting power at the Fairtrade International General Assembly. Fairtrade Asia and Pacific is on the front lines providing support and getting important Fairtrade information to Producer Organisations, supporting them to understand and meet the Fairtrade Standards, and strengthening their organisations through trainings, workshops, and exchange visits on topics from good governance, to human rights, climate change adaptation and more. In partnership with the national Fairtrade organisations and Fairtrade International, they ensure that Fairtrade is working to strengthen livelihoods and empower farmers and workers.

Producer Satisfaction Survey

Survey implementation

The Producer Satisfaction Survey was first run in 2012 and 2015, overseen by Fairtrade International. As the Producer Networks took over the lead in organizing support services, NAPP began running its own survey in 2018. The most recent survey, and the one discussed in this report, was run in 2023 and looked at satisfaction with Producer Network support services provided in 2022. While the survey versions are not 100 percent identical across Producer Networks, there remain enough similarities to allow comparisons across key indicators.

The Producer Satisfaction Survey is a critical tool to enable understanding on how Producer Networks' work with Producer Organisations is going. It shows how Producer Organisations are receiving information and support from Producer Networks and how satisfied they are with received support. With this information, we can learn, adjust our approach as needed, and better serve Fairtrade Producer Organisations.

ONLINE SURVEY

The 2022 Producer Satisfaction Survey was conducted using an online tool, with email invitations sent to all Fairtrade Producer Organisations in the region.

EMAIL REMINDERS

After the invitation has been sent out, regular email reminders helped to increase response rate.

PRODUCER NETWORK STAFF FOLLOW UP

Producer Network staff contacted those Producer Organisations that had not responded to encourage them to do so.

COUNTRY AND PRODUCT-SPECIFIC UNDERSTANDING

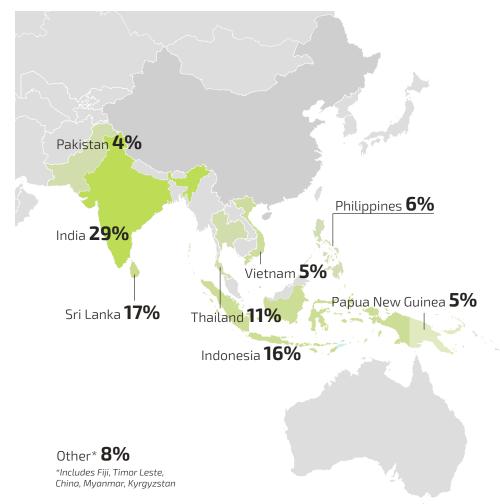

Analysis was done to better understand satisfaction both at the regional level as well as for particular countries and products.

Producer Satisfaction Survey: Response rate and sample distribution

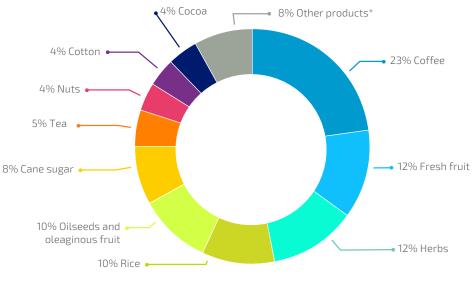

43% response rate (128 PO respondents out of 297 surveyed)

Cotton	4%
Сосоа	4%
Other products*	8%

*Includes sportsballs, rice and dried fruit

Overall satisfaction with Fairtrade producer support

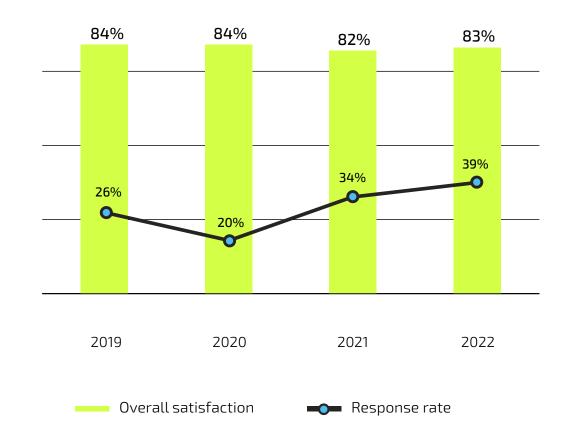

Overall, 86 percent of Fairtrade Producer Organisations surveyed are satisfied or very satisfied with producer support activities in 2022. This high number reflects the hard work of many Producer Network staff as well as detailed annual planning to ensure that Producer Organisation needs are being met. Producer Satisfaction Survey results from previous years have also been used to make action plans and address areas of weakness.

Overall satisfaction in 2022

Overall satisfaction over time

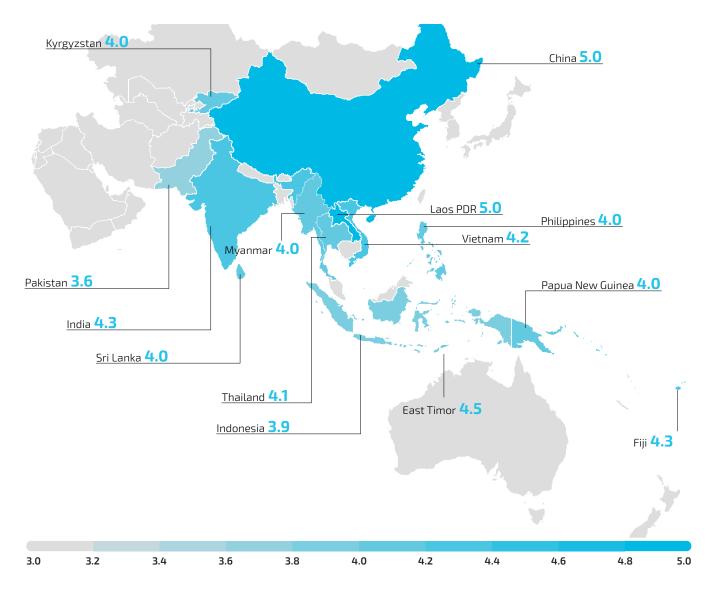

(% of very satisfied or satisfied Producer Organisations)

Satisfaction with Fairtrade producer support by country

Detailed country-specific analysis of results shows that satisfaction is typically lagging in areas where it is not possible to place a Producer Network staff member (meaning that physical visits are not possible) or where the number of Producer Organisations has increased drastically in recent years (meaning that it is difficult to keep up with the demand for support).

Country- and product-specific satisfaction results have already been incorporated into Producer Network planning activities, with extra attention to be given to areas of concern.

The scores are out of a scale from 1 to 5, being 5 the highest score.

Most important benefits of being part of certification scheme

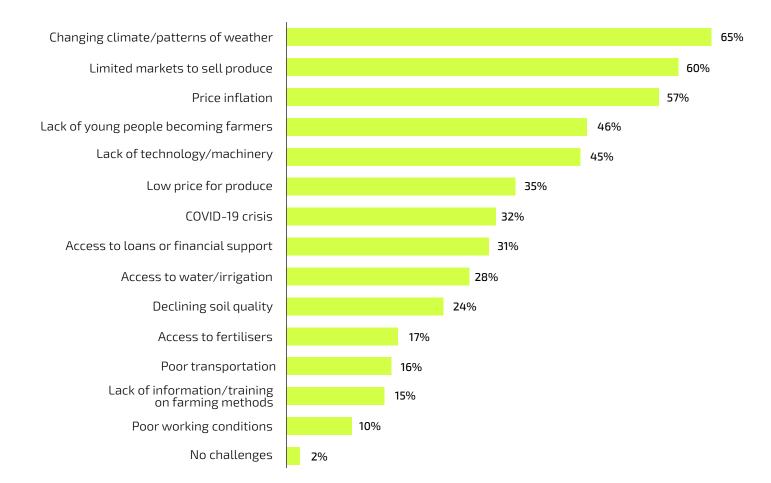

Which of the following potential benefits of being part of a certification scheme are most important to you / your Producer Organisation?

Technical assistance and training on agricultural techniques is notably more important to producer organisations in Asia and Pacific region Producer organisations rate support to protect biodiversity and support to protect against climate changes as similarly important

Top challenges Producer Organisations are facing

What are the top two challenges that you are facing currently as a farmer or producer/member of your Producer Organisation?

65% of producer organisations in Asia and Pacific picked climate change patterns in the top two challenges

Lack of young people becoming famrers and lack of technology were rated as similarly challenging by producer organisations

Satisfaction with direct support

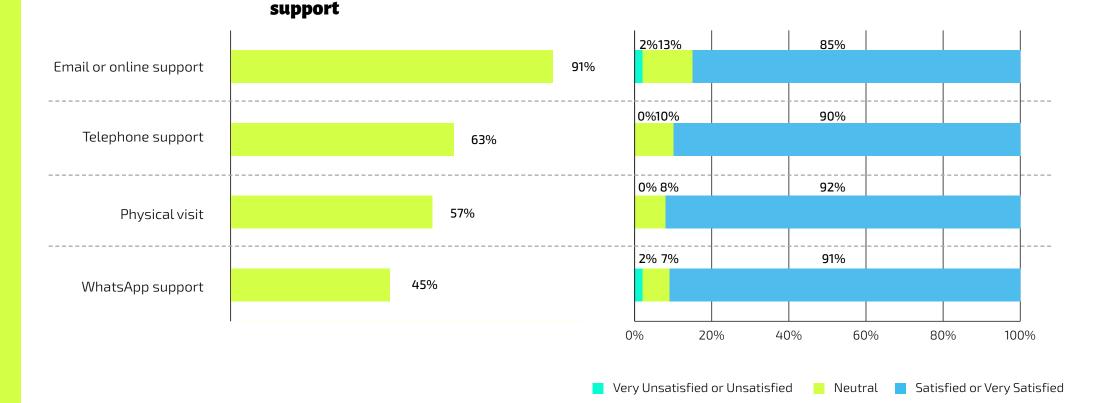

Percent of Producer Organisations that received direct

The Producer Networks provide direct, one-on-one support to the Fairtrade Producer Organisations in their region through two primary means: physical visits and remote support. Typically, physical visits mean a Producer Network field officer physically travels to the offices of the Producer Organisations and offers the support in person, usually for complex issues, or for training events or workshops.

For remote support, Producer Network field officers or Producer Network secretariat staff offer support to the Producer Organisation via emails, webinars, telephone or live online chats.

Remote support is mostly used for unplanned requests for support, when the issues in question require similar support to be given to multiple Producer Organisations spread over a large geographic area, when there is an overlapping of activities, and/orwhen support is simply delivered without the need for a visit.

Level of satisfaction with direct support

Fairtrade: Asia and Pacific **Producer Satisfaction Survey (2022)**

Satisfaction with events

Producer Networks also run group events for Producer Organisations to facilitate dialogue and build capacity around relevant topics. The types of events organized include training workshops, consultative events, trade shows, Producer Organisation exchange visits and producer networking events. Typically, in the latter two cases, Producer Organisations and producers themselves learn directly from the experiences of other Producer Organisations and producers selling similar products in similar geographies with the Fairtrade Producer Network serving mainly as a facilitator.

Each of these types of events will attract a different mix of Producer Organisations and be aimed at achieving different outputs and outcomes. For example, a successful output for a training workshop focused on producer action plans would be increased Producer Organisation capacity, so that this increased capacity allows the action plans to be constructed and implemented.

A successful output for an exchange visit would be greater social networks for knowledge exchange between Producer Organisations and practice demonstrations so that these Producer Organisations use this knowledge with their members for improving practice. Producer Organisation satisfaction with all types of events was very high, ranging from 85 percent satisfied or very satisfied with producer networking events to 87 percent satisfied or very satisfied with consultative events.

Percent of Producer Organisations that attended events

Key Topics of Fairtrade producer support services

During support activities with Producer Organisations, Producer Networks cover topics such as maintaining Fairtrade certification, developing Fairtrade Development Plans or increasing sales. Training on these topics is often intended to enable the Producer Organisation to do some specific tasks or take some specific action.

The survey asked Producer Organisations what were the outcomes of direct support or events provided by Producer Network. Following pages show what actions Producer Organisations report taking after receiving different types of support.

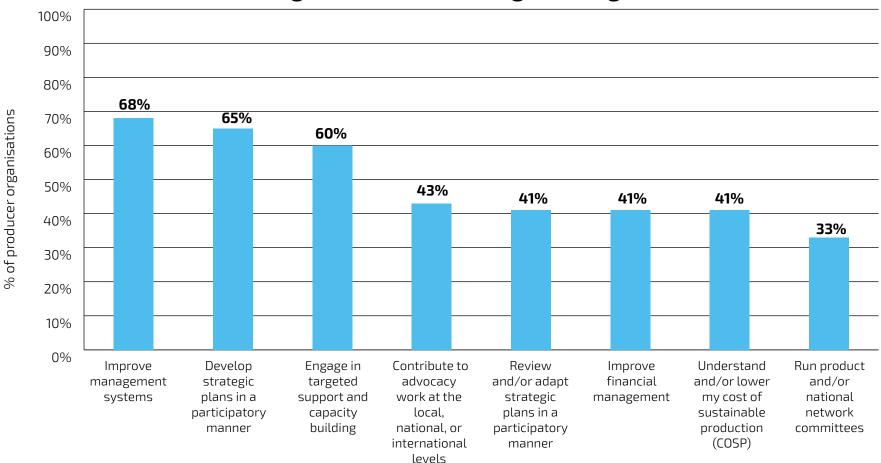

Percent of Producer Organisations that received support on specific topic

Fairtrade certification and standards compliance

77% of producer organisations received support on Fairtrade certification and standards compliance

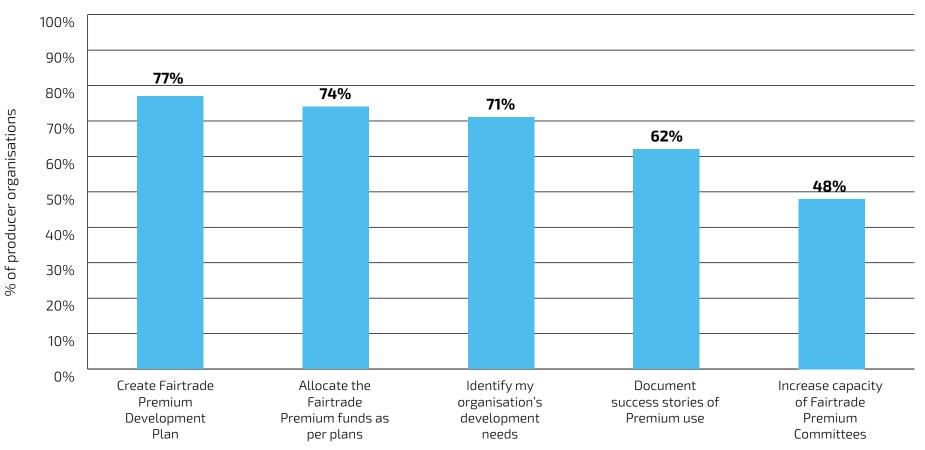

Support on Fairtrade certification and standards compliance was most helpful formaintaining current Fairtrade certification. More than half of producer organisations that received this support find it helpful in audit process and increasing standards awareness.

Organisational strengthening

50% of producer organisations received support on organisational strengthening

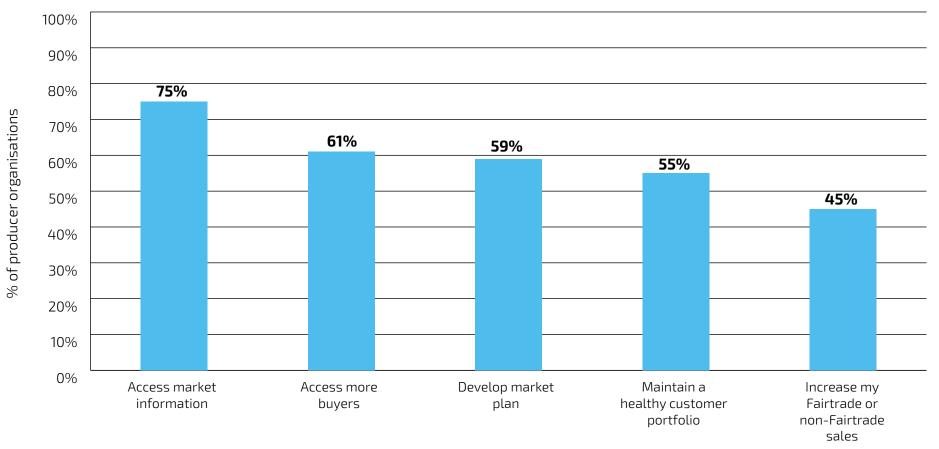

Key outcome of organisational strengthening support were improved management systems. In addition, producer organisations reported that this support helped them with capacity building, financialmanagement and strategic plans.

Fairtrade Development Plans

51% of producer organisations received support on Fairtrade Development Plans

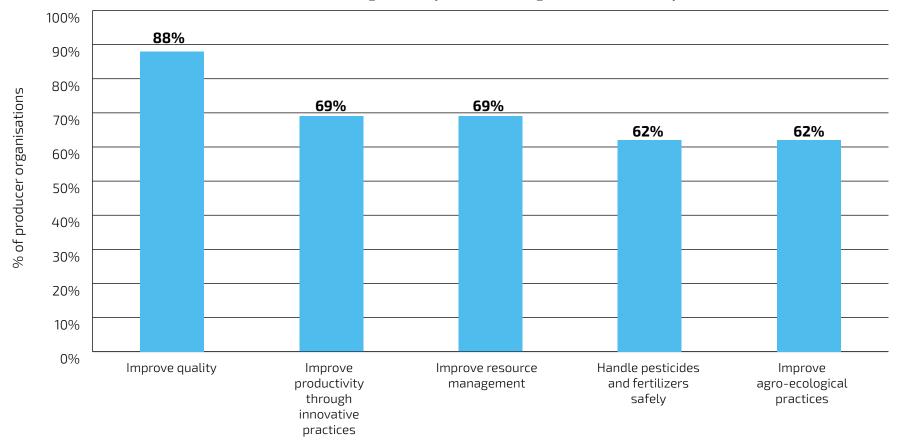

Support on Fairtrade Development Plans allowed majority of producer organisations to identify needs, create plans and allocate Premium funds

Sales and/or market information

35% of producer organisations received support on sales or market information

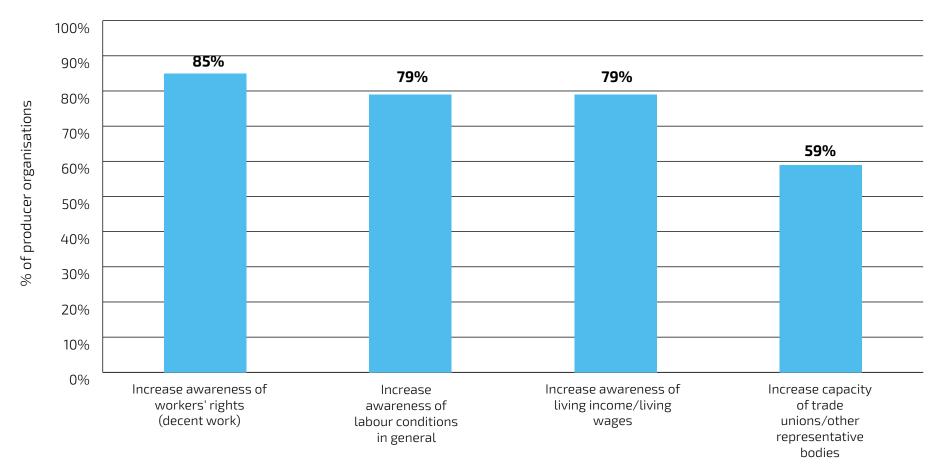

Producer organisations reported that this support services allowed them to access market information and develop market plan while maintaining healthy consumer portfolio.

Production, quality and/or productivity

33% of producer organisations received support on production, quality or productivity

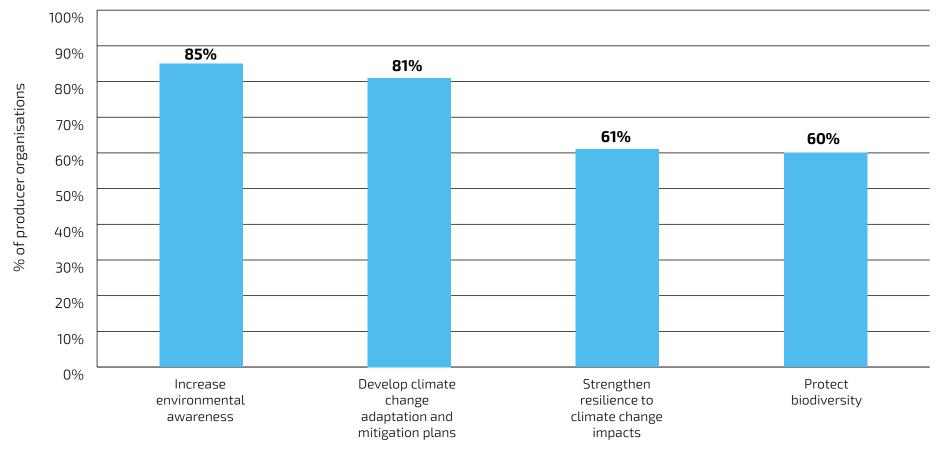

Vast majority of producer organisations that received production support reported several outcomes. Improving quality and agricultural practices are one of the most reported outcomes.

Good labour practices

27% of producer organisations received support on good labour practices

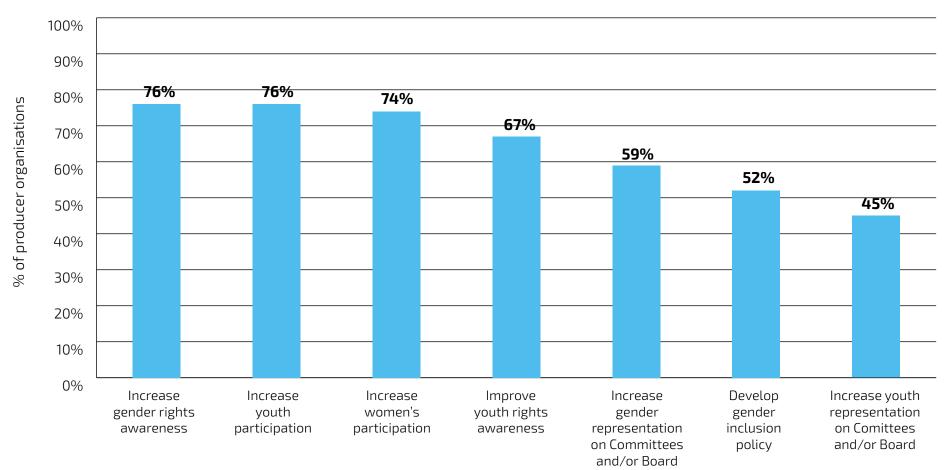

Key outcomes of support on good labour practices were related to increasing awareness of labour conditions, worker's rights, living income or living wages.

Climate change adaptation and mitigation

57% of producer organisations received support on climate change adaptation and mitigation

Almost all producer organisations that received support on climate change reported that it was helpful in increasing environmental awareness.

Gender and youth inclusion

52% of producer organisations received support on gender and youth inclusion. Key outcomes

Key outcomes of this support were related to increasing awareness of gender and youth rights, as well as increasing participation of women and youth.

100% 90% 82% % of producer organisations 80% 67% 70% 63% 60% 49% 50% 40% 31% 30% 20% 10% 0% Develop a policy Set up a Youth Better sensitize Better remediate Reduce recorded cases of child and/or internal farmers/workers cases where child Incluse management system on social labor, forced labour, labor, forced **Community Based** on child labor, forced compliance and/or gender-based labour, and/or Monitoring and labor and/or issues violence have been gender-based Remediation gender-based violence identified (YICBMR) system violence

Child protection and vulnerable adults

39% of producer organisations received support on child protection

More than half of producer organisations reported that this support helped them in developing internal policies and better remediation of identified cases.

Recommendations and feedback

Here we have included some examples of some recommendations and feedback given by Producer Organisations during the 2022 Producer Satisfaction Survey. Feedback was given in the respondent's preferred language and translated into English. The full suite of feedback is available to each of the Producer Networks.

Increase the budget for environment to be able to show effects of environmental protection.

More trainings on Fairtrade Standards.

Promote our organic Fairtrade products to more Fairtrade buyers Increase staff member to interact with producer organisations.

Access to funds for youth.

More visits to the local producer organisation to see the actual picture or the challenges been faced

Provide information on latest Fairtrade certification standards or the latest policies via Gmail, WhatsApp or other digital applications Training on increasing market share

Lower the cost for certification

Training meetings should be conducted quarterly

Trainings on utilization of Fairtrade premium

About monitoring data in this report

The monitoring data in this report come from two sources: CODImpact and Fairtrace.

The CODImpact monitoring dataset contains data collected from Producer Organisations during audits. Not all Producer Organisations are audited in a given year, in which case the data are completed using the latest available record. In this report, Fairtrade Premium generated and sales volumes for smaller products, and the number of farmers and workers for all Producer Organisations, are sourced from CODImpact.

The second source of data is Fairtrace, which stores all transactions in a given year from Fairtrade Premium payers. Fairtrade Premium generated and sales volumes for the top 7 products (coffee, bananas, cocoa, flowers and plants, tea, sugar and cotton) are reported from Fairtrace.

The data have been extensively checked and cleaned. However, in a monitoring project of this magnitude there may be some areas of inaccuracy, such as:

• There may be missing information from Fairtrade certified Producer Organisations that is not taken into account because of quality.

• There may be missing information in some questionnaires from certified Producer Organisations that was not reported by auditors.

• There may be wrong data or data that were not validated.

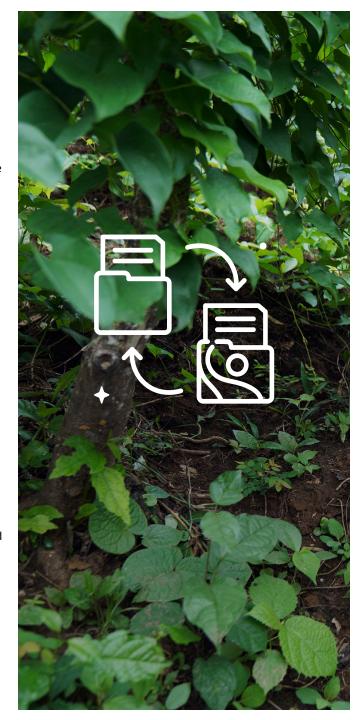

• Figures are subject to change. Data may change in the future after receiving new reports or as a result of continuous data quality checks.

The number of certified organisations is counted as the number of Producer Organisations at the end of the calendar year with any of the following certification statuses: certified, suspended or permission to trade.

Under the terms of confidentiality agreements with Fairtrade Producer Organisations, data may only be publicly reported in aggregate form. Displaying the data is restricted to not in any way expose sensitive information belonging to a single Producer Organisation, Fairtrade Premium payer or trader. Where there are fewer than three Fairtrade certified Producer Organisations in a country, and market-sensitive business information could be deduced, we do not report aggregated data on the Producer Organisations.

DISCLAIMER

Fairtrade International is not responsible for the accuracy of the data. The report has been compiled to the best of our knowledge and is provided for informational purposes only. Fairtrade International reserves the right to update the monitoring data as new information becomes available. Data quality checks are performed continuously, thus the data presented can change in future reports. The data are provided 'as is' and no warranty of any kind is given for the accuracy and reliability of the data. Fairtrade International will not be liable for any claims or damages related to the quality and completeness of the data, as far as it is permitted under law.
